PROJECTS

Github RepoFinder   Link to Demo

The GitHub Repo Finder is a web app for searching and discovering GitHub repositories. It uses the GitHub API to fetch repository data and provides a user-friendly interface. Users can search by keywords or specific repository details, with results showing essential information like name, description, stars, and forks.

Feedback - UI   Link to Demo

I have developed a FeedBack-UI component for gathering user feedback and ratings. The component utilizes ReactJS hooks to capture user input, CSS for styling, and various functions to calculate accurate review ratings based on the provided feedback.

WORK EXPERIENCE

ReactJS Intern   June 2022 - July 2022

During my one-month React.js internship, I gained hands-on experience in front-end web development. I quickly learned the fundamentals of React.js, including component-based architecture and state management. I collaborated with a team to develop responsive user interfaces.

Fullstack Intern   Feb 2023 - June 2023

As a Full Stack Developer intern, I gained hands-on experience in front-end and back-end web development using HTML, CSS, JavaScript, React, and Node.js. I collaborated with UI/UX teams to create intuitive user interfaces and implemented responsive designs. On the back-end, I worked with databases, RESTful APIs, and conducted thorough testing.
